Clear Polyurethane Tubing

1/1/11

CPT (Clear Polyurethane Tubing) material is an FDA polyurethane compound extruded in a seamless tube form of various diameters. FDA regulations: 175.105, 177.1680, 177.2600 **Material does not have Phthalates in its composition.**

Material usages include connector sleeves & covers between sifters, vibrators, centrifuges & their connecting pipes. They are also used as expansion joints & vibration isolators.

Material specifications	Diameters:	Available 4" –12"ID
Material specifications	Diameters:	13" – 100"ID
TaperedHardness:	85 Shore A	
Thickness:	.030" (30 mil)	
Tensil:	6000+ psi	
Length:	Rolls up to 100'/3 foot Sections for Larger	
Temperature:	150 degrees F continuous	
	180 degrees F max surge	

User's responsibility:

This bulletin cannot cover all possible situations, which the user may experience during processing. Each aspect of your operation should be examined to determine if, or where, additional precautions may be necessary. All health and safety information contained in this bulletin should be provided to your employees or customers. It is your responsibility to use this information to develop appropriate work practice guidelines and employee instructional programs for your operation.

Disclaimer of Liability:

As the conditions or methods of use are beyond our control, we do not assume any responsibility and expressly disclaim any liability for any use of this material. Information contained herein is believed to be true and accurate, but all statements suggestions are made without warranty, express or implied, regarding accuracy of the information, the hazards connected with the use of the material or the results to be obtained from the use thereof. Compliance with all applicable federal, state and local laws and regulations remains the responsibility of the user.
